

# Just Breathe

Written by: PFY

Intro: E

Fireside on the ocean tide, It's empty space here by my side

Just breathe, just breathe

From the purple stretch of the moonlit sky, To the shining tears from a cold blue eye

Just breathe, Just free

## Chorus:

So just breathe, just breathe (wanna be free, wanna be free), just breathe, just breathe, (just breathe)

Feel the misty breeze on my tired feet, empty mind in the wanderings

It's just fine, No it's fine

Equanimity at it's very best, A Vagabond, a noesis quest

Why try? Why try?

## Chorus:

Just free, You're just free, so just breathe, oh can you breathe

## Bridge:

Oh, from an unsung song, You are moving on, Love has come to the broken ones  
Fill an empty place, Heal the broken heart, Walking on to a brand new start  
So just...breathe, Just breathe, Just breathe, just free
